SMITHING, SINGING & IMAGES:
THREE HIGHLIGHTS OF
SUDBURY CANADA DAYS

Three feature pastimes of the
Sudbury Days celebration on Sat-
urday and Sunday, Aug. 14 and 15,
in Bethel will be the Skillings
family blacksmithing, the barber
shop singing of the "The Hills-
men" and old time photographs
by Hutchinson Bros.

On Saturday evening, following
the "River Drivers' Baked Bean
Supper," The Hillsmen barber
shop singing group will be on hand
with vocal entertainment, includ-
ing that old favorite of barber
shop quartets, "Lida Rose", typi-
cal of summer evenings at the
turn of the century. The Hillsmen,
attired in old time costumes of
striped shirts, black trousers and
arm bands, will be singing in Beth-
el for the first time courtesy of
Stan Fox.

Few old time activities were
more fascinating to barefoot young
boys than the whir of the black-
smith's forge and clang of his
hammer on red hot iron. Albert
Skillings and his grandson will
provide a Saturday and Sunday
afternoon matinee of smithing on
the Moses Mason Museum lawn for
those barefoot boys now turning a
little gray with a new crop of cu-
rious youngsters.

Even though long dresses and
high starched collars are now a
part of history, through the imag-
es of Hutchinson Bros. photog-
raphy, visitors of Sudbury Canada
Days can take away a portrait of
themselves as they might have
looked 75 or a 100 years ago. At
4 p. m. on Saturday, a door prize
drawing will be held on the muse-
um's back steps. The winner will
receive an "instant ancestor" pho-
tograph of him or herself from

FROM BETHEL IGA IN

LATE WEDNESDAY ROBBERY

The Bethel IGA was robbed of
two money bags containing ap-
proximately \$5,000 in cash and
checks late Wednesday afternoon.

According to Bethel Officer Al-
len Afflenbach, two males entered
the store at 5:45 p. m. While one
was examining merchandise, the
cashier noted that the other en-
tered the manager's office located
adjacent to the cash registers.
After he came out of the office,
both of the males walked out of
the store.

Informed of the incident, another
employee investigated and dis-
covered a money bag missing from
the safe. The police were then
called by going to a nearby store
as the IGA's phone was inoperable.

Local police described the two
suspects as being 20-24 years of
age; one 5 foot, 11 inches tall,
weighing about 150 pounds with
brown afro-style hair, wearing a
brown shirt and blue jeans. The
other was described as being 5
foot 5 inches tall, 155 pounds, with
brown hair cut in a dutch cut and
wearing blue jeans. It was be-
lieved that the subjects were on
foot.

Recent articles in the national
press graphically describe the de-
cay of our nation's infrastructure
—its highway systems, water and
sewer networks, bridges, water-
ways, dams, etc. The central is-
sue is the massive expenditures
that will be required for repair.

We would be fooling ourselves if
we believe that this is a distant
phenomenon that could not hap-
pen to us close at home. On July
1, 1982, the Local Road Assistance
Program was implemented that
turned over to the Town 12 miles
of formerly State roads for main-

this effort, the State will provide
funding for the next year in the
amount of \$2,750 per mile paid to

SUGAR AND GOLD

HADLEY - ANDREWS

In an evening candlelight ceremony on Saturday, July 10, 1982, Mary Ellen Andrews, daughter of Mr. and Mrs. H. Stanley Andrews of Bryant Pond, became the bride of Lonnie Hadley, son of Mr. and Mrs. Erion Hadley Sr., of South Woodstock.

Elder William Menshausen performed the ceremony and Pastor Thomas Schroer offered the prayer at the South Woodstock Seventh Day Adventist Church.

The bride wore an ivory organza gown with a Victorian neckline, accented by an embroidered yoke with ruffled lace. The skirt had a double flounce around the hemline forming a chapel length train. She was attended by her sisters, Elmer Andrews and Bethany Bean, as matrons of honor. Deborah Greene served as bridesmaid and Holly Jean Roberts was junior bridesmaid. Amanda Hadley, Heather Jo Roberts and Lori Anne Bean, served as flower girls.

Date and Keith Hadley were best men and ushers included Walter Appleby III, Rick Farnum and Kenneth Pulsifer, Troy Ryerson as Junior usher, Ricky Jelskis was Bible boy.

Before the ceremony, candles were lit by Lance Bean, Greg Hadley and Jeff Hadley. After the prayer, John Yates, accompanied on the organ by Anne Dunham, sang "He".

The candle ceremony highlighted the occasion as the parents of the groom jointly lit a candle symbolizing their son, Lonnie, and then the parents of the bride lit a candle symbolizing their daughter, Mary Ellen. Then the bride and groom symbolized their union by taking the candles and lighting the one top candle.

The reception was held downstairs at Ledgeview Memorial Home where a program was enjoyed. As the bride and groom were introduced, Peggy Poskus

Mr. and Mrs. Lonnie Hadley

sang "Colour my World." Then Peggy and John Yates sang a very nice duet to "Evergreen." Afterward "Dad's Quasiest" sang "Daddy's Little Girl" and other barbershop songs. Dora Hazelton, the groom's grandmother, played a few songs on the piano afterwards.

The guest book was attended by Linda Pulsifer. The gifts were opened by Darlene Brown and Jo Ann Hadley.

The refreshments were enjoyed by everyone. After the bride and groom cut the cake, Muriel Richard and Linda Eastman served it. The cake was decorated by the bride's sister, Bethany Bean. It was a beautiful cake with lavender and white silk flowers all over it and a fountain underneath.

After a week long honeymoon trip to the Poconos in Pennsylvania, the bride and groom are residing in South Woodstock.

NOTES FROM

Evans Notch

White Mountain National Forest

On July 14, personnel from the Evans Notch Ranger District assisted State and local firefighters in containing a forest fire on privately owned land in Chatham, N. H. The fire burned approximately six acres of recently cut blown down timber adjacent to National Forest land. The rain of the past week temporarily lowered the fire danger; however, high winds of the last several days have elevated the danger again. Users of both National Forest and private woodlands are urged to use extreme caution when traveling or working in the woods.

If you like to hike, fish or enjoy pleasant surroundings, Evans Notch offers a variety of recreational experiences. July has been a very active month within the five developed recreation areas. The hot summer weather has motivated people to spend time at campgrounds or in the backcountry. A publication describing recreation opportunities on the Evans Notch District is available free of charge. You may obtain one from

the Ranger Station or from Campground hosts.

The District welcomes Earle and Eva Rogers to Hastings Campground. They are Campground Hosts and will assist campers by providing information. We have also been fortunate to have Boy Scouts from South Portland, Maine and Belmont, Mass., assist with wildlife opening maintenance and litter cleanup.

The Youth Conservation Corps (YCC) program is in operation. The three enrollees are Michael Gendrolis, Lawrence Garey and Tamara Poland. Their projects have included wildlife habitat improvements, recreation maintenance, and various trail projects. One recent YCC wildlife project was the planting of seeds and grasses at the Patte Marsh Impoundment. This action will provide food and cover for various species once the impoundment is allowed to refill this fall.

Parke Clemons and Jody Shimamura have joined the summer trail and recreation crews. Both are students at the University of Maine at Farmington and are working under the College Work Study program.

OLSON'S TRAPPERS WEEK END PLANNED FOR AUG. 7-8

The 5th Annual New England Trappers' Week End sponsored by Neil Olson at his home in East Bethel is planned for Saturday and Sunday, Aug. 7 and 8. Two all-day programs have been lined up, starting at 9 on Saturday morning. It will include demonstrations, contests, displays, a supper and entertainment by the Old Timers Band. Many scheduled events will interest the whole family, such as a dog show, a kids' fishing derby, music and refreshments on sale throughout the week end. Overnight camping will be available.

Among the demonstrations of interest to trappers are skinning

procedures, trap adjustment, setting, bait and lure making. Professionals included on the roster of demonstrators are John Abbott from New Hampshire; Ray Milligan, Kansas; Ivan White, Nebraska; Bud Boda, Sam Levine, Paul Grinshaw, and Bob Freeman, New York State; Steve Plummer, Carl Trip, Ray Porter, Tammy Zeh, Steve Zeh, Al Yates, Ernie Lagdon, Don Dudley, all from Maine. A canoe trip headed by Kathy Fernald with four canoes and seven girls put in at Haine's Landing Mooselookmeguntic Lake. They came down Richardson Lake and had a picnic on the lake before finishing their trip to South Arm.

Our little fishing visitors have been doing some real good lake fishing. Ten year old Elsworth Trundy, Jr., caught a 6 lbs. 15 1/2 oz. togue measuring 25 1/2" in length. With help from Elsworth Trundy Sr., four year old Toby Irish got a 6 lbs., 24 1/2" togue.

The Dam family's week end guests were Mr. and Mrs. Roland Scott, Windham, and Mr. and Mrs. David Little, Windham, with daughter, Jackie.

People from our little Hamlet helped West Paris people celebrate their or our silver jubilee and the weatherman was on our side until about 8:30 p. m. when we enjoyed a thunderstorm. The whole town turned out to watch the Parade which formed at Trap Corner and marched to the amusement field by the Town Office. One source of fun at the field was the Molly Ockett clank jail and it was a very busy place. It cost one dollar to put a person in jail for 15 minutes. A man from California tried to buy a pin that had a picture of West Paris Public Library on it and they were all sold so Joe Vatcher gave the man his pin. He was passing through. The supper and chicken barbecue dinner were well patronized. Ev-dinner were well patronized. Ev-

Doris Lawrence and Arnold Coffin went to East Sumner and picked raspberries at Horace Cobb's. They said it was a bit warm. Blueberries are ripe.

Mr. and Mrs. Joe Reidy found all ledge when they tried to have a well dug so they had a well drilled and returned to their home on Tuesday.

Mr. and Mrs. Joe Vatcher went to Portland Aug. 2, for Joe's appointment with an ear specialist.

Skip Chamberlain has returned home from the hospital but goes every other day to the hospital for dressings. The Vatchers called on Skip and Evelyn Tuesday.

Callers at Lawrence's: Mr. and Mrs. Peter Lawrence, Mr. and Mrs. Joe Kalinowski, Mr. and Mrs. Joe Vatcher, Lennie Pierson, Correy Bonney, Arnold Coffin. The Abbotts came over Saturday evening. No one home so they went to the "Old Home Day" and shortly they landed in "jail". They better watch out next time.

Dominick Pechiwick came from the Conservation School at Bryant Pond and told us about the school and it was very interesting. Clyde

Greenwood City — T.T.A.E.R.S. News

— Mrs. Collista Morgan, Corres. —

How much more I enjoy the
countryside when walking through
it! When walking the road, there
is a constant sense of mechanical
detraction from the complete en-
joyment found in the silence of the
forest. Even the pond was breath-
ing softly. It seemed to be absorb-
ing all the sounds of the earth. No
wind, no lapping of the water, no
calling of animals or birds. Stand-
ing there alone I just listened.
Any movement would have des-
troyed the spell.

In a short time, as I watched
and listened, I heard the violin
notes of a hermit thrush and the
call of a whistling thrush. They grad-
ually merged one with the other
blending to a softness of sound no
louder than my breathing. It now
seemed vague and far away.

One doesn't have to be alone to
enjoy stillness. The ability to en-
joy it with others shows friendship
and understanding. If there is ap-
preciation of the same things, si-
lence is no bar to enjoyment. I
have found it so, many times over
the years of hiking. So today in
this quiet place, I wished for some-
one to share it and make the ex-
perience richer and more com-
plete.

There wasn't time for a long hike
today. I rested on a log and a
squirrel came spiraling part way
down the trunk of a pine chatter-
ing and scolding every foot of the
way. I froze against the stump
behind me. Just above me it stop-
ped, eyed me and then, with a
reckless leap, landed at the very
end of the log where I sat. It scoo-
ded and ran free.

I set out for home for I had ber-
ries to pick and much to do.

On Monday, Frank Curtis was
taken from Stephens Memorial
Hospital to Maine Medical Center
and on Monday, Aug. 2, he is still
there. On Friday, Mr. and Mrs.
Fred Curtis, Dorothy Curtis and
I were there to see him.

Our callers this week were Carl
and Lettie Brooks, West Paris;

don't aggravate them. If stung,
wash in cool water, remove the
stinger if it is visible by scraping
with a sharp surface. And watch
for signs of allergic reactions.

HORSESHOE & CROQUET

TOURNEY, AUG. 14-15, DURING SUDBURY CANADA DAYS

Emphasizing the theme "Old Time Pastimes" Sudbury Canada Days will feature a horseshoe pitching contest on Saturday, Aug. 14, between 1 and 4 p. m. and a croquet tournament Sunday, Aug. 15, between 1 and 4 p. m. These will take place on the lawn of James and Constelo Alger, Broad Street, who have generously donated the trophies and ribbons for the occasion. Anyone interested in participating is cordially invited to do so by calling the Society office (824-2908).

Two Senate committees on which I serve acted recently on bills that are of significance to Maine.

One measure, which I strongly oppose, would charge the nation's electric consumers for a portion of the cleanup costs at the Three Mile Island nuclear power plant in Pennsylvania. Under this bill, Maine's utility customers would be charged for over \$1 million of the cleanup costs, through increases in their utility bills.

Under this proposed legislation, ratepayers who did nothing to cause the accident at the Three Mile Island nuclear power plant and who receive no direct benefits from the plant would be required to share in the cost of the cleanup. In other words, it bails out the Three Mile Island plant on the backs of the ratepayers.

I think it is wrong to ask Maine's electric consumers to pay for the mistakes made by the operators of the Three Mile Island plant. Further, it sets a dangerous precedent, one that would give other nuclear power plant owners reason to expect a similar bail-out, when future accidents occur, at the expense of ratepayers.

The Senate Environment and Public Works Committee has forwarded the bill to the full Senate, without either a favorable or unfavorable recommendation, after defeating my motion to recommend its defeat. Clearly, the bill did not have strong support in the committee, since the committee declined to recommend its passage. I hope the Senate debate on the measure will prove its unfairness.

Restrictions on Use of Imported Seed Potatoes - The Senate Finance Subcommittee on International Trade held a hearing on a measure which I sponsored to require strict enforcement of end-use restrictions on imported seed potatoes. Although seed potatoes imported from Canada are properly labeled when they cross the border into the U. S., these potatoes are often repackaged and sold as tablestock potatoes, once they have cleared customs.

The bill I introduced would help end this practice.

Maine's potato growers are being hurt both by the tremendous influx of imported, subsidized Canadian potatoes, and by the lower cost of those potatoes in American markets. Because the import duty on seed potatoes is lower than that of tablestock potatoes, the repackaged seed potatoes can be sold at a lower price.

The same subcommittee also held a hearing on a bill I sponsored to accelerate the reduction of import duty on certain imported fish nets made of synthetic materials, which are not domestically produced. Maine fishing vessel owners now pay exorbitant prices for fish nets that they cannot purchase in this country. If imported fish netting costs \$15,000, about \$5,000 of that amount is import duty. My bill would lower the duty from the current 37.5% of value plus 25 cents per pound of

MUSICAL PROGRAM SUNDAY

first responder for the B.E.A.R.S. and Tri Town Ambulance Service as he is close enough to either service to assist whichever one is in need. Both the B.E.A.R.S. and Tri Town are fortunate to have such a capable, dedicated person that can share his loyalties with both services. He has served with the Greenwood Fire Department for 15 years. Raymond enjoys fishing, hunting, dancing and most any kind of ball game. Raymond always puts the patient's needs and comfort first.

Safety Tip of the Week

If you should come upon an auto accident be sure not to move the patient unless the patient's life is in danger. You could do more damage if you try to move anyone. Unless you have taken First Aid or are with any rescue service, call for the rescue personnel and try talking to the person, being sure the patient doesn't move.

UMO Skywatch

(Prepared by University of Maine at Orono Planetarium staff.)

If you are always just too late to wish upon a falling star, the perfect opportunity to catch up with lost chances will occur Aug. 12 here in Maine.

On that date the earth will pass through the peak area of the Perseid meteor shower (named because the meteors appear to come from the constellation of Perseus). At the peak of the shower an observer will be able to spot as many as 50 to 70 meteors an hour. The largest number of meteors will be seen near Perseus, in the eastern and northeastern sky, and viewing will be at its best after midnight.

Although meteors are often called "falling stars," they do not really qualify for that name because they are not stars. The word "meteor" is actually a Greek word which originally meant "phenomenon in the sky" and referred to such natural events as lightning, rainbows or snow.

Today that word refers to the phenomenon or object in the sky which causes a streak of light as it burns up in the atmosphere. Meteors frequently are debris left floating in space by comets as they cross the path of the earth's orbit.

When the earth passes that same area again in its yearly circuit around the sun, the debris left behind by these comets falls into the earth's atmosphere travelling so fast that air friction heats up the meteor causing it to burn to a cinder in a matter of seconds. Large fields of such debris are known as meteor showers.

Rocky flotsam from a comet is so plentiful in those areas that many meteors are located in a small part of the earth's orbit. Most meteors do not survive the air friction burning long enough to reach the earth's surface, but those that do land are then called meteorites.

FROM THE TOWN OFFICE

continued from Page One
Town is, obviously, a very important part of our communications and economics picture. Therefore, when the Department of Transportation adopted the Local Road Assistance/block grant programs, there was a great deal of concern among Town officials and taxpayers alike. If we do not act quickly to manage our road pavement system and adapt to the new block grant changes, we might face serious budgetary ramifications and other unpleasanties in the near future.

Pavement management is a technically awesome field that is new to most of us; very few of our citizens are trained civil engineers. However, important lines of communication have been opened between the Town Office/Highway Department and D.O.T. highway engineers who have expertise in these matters. With their help in technical areas, we have commenced the development of a long range pavement maintenance plan for Bethel roads.

As an initial step, the Town Manager and Highway Foreman will be inspecting our streets collecting data relative to the following pavement parameters: ride quality (road roughness), skid resistance, rutting, and structural capacity. This data, with the help of state highway engineers, will be reviewed and each road rated and prioritized as to its maintenance or rehabilitation needs. Maintenance is defined as those activities, such as crack sealing and pot-hole patching, necessary to sustain the integrity of the pavement structure. Rehabilitation is defined as those activities that restore the pavement structure in whole or in part to original condition. Bethel roads identified as needing maintenance and rehabilitation along with associated costs will be presented for consideration in the yearly budget process.

Studies show that maintenance costs increase as road serviceability declines. Every dollar of rebuilding costs spent at a road's "half life" will require an additional \$4 cost for every year that renovation is delayed. In sum, we will not be in competition with the State or neighboring towns for the condition of our roads, but, instead, the structural integrity and serviceability of the roads themselves, which is the true measure of merit.

In other matters, Jeff Lowe was appointed a Special Police Officer. Jeff, a Police Academy graduate, comes to us with experience in town and county sheriff police work and is a welcome member of the Bethel team. Incidentally, many of us are aware there has been a recent rash of petty thefts and malicious mischief. According to state law, to be effective in pressing arrests business establishments should have the property posted against trespassers.

Several Boards and Committees will be meeting next week. The Board of Selectmen will hold their next meeting on Monday evening, Aug. 9, at seven o'clock in the Bethel Savings Bank meeting room. The Community Safety and Law Enforcement Committee will meet in the Town Office meeting room at 7:30 p. m., Wednesday, Aug. 11. On Thursday, at 7 p. m., the Radio Study Committee will meet in the Town Office meeting room.

PLANNING COMMITTEE FOR LAW ENFORCEMENT CONFERENCE MET JULY 28

The planning committee for the Oxford County Conference on Law Enforcement and Public Safety met on Wednesday, July 28, at the meeting room of the Moses Mason House in Bethel. S.A.D. 44 Adult and Community Education Director Cathy Newell chaired the meeting and reported on progress regarding the conference, which will be held on Saturday, Oct. 16, at Telstar Regional High School in Bethel. Oxford County District Attorney Janet Mills attended the meeting, as did Edward McClure of the U. S. Department of Justice in Boston. Program committee members George Emmerton of the Oxford County Sheriff's Department, and Barbara D. Brown and Jane Hostenman of the Bethel Safety Committee presented reports on the speakers and presenters who have accepted invitations to attend the conference.

The Oxford County Conference on Law Enforcement and Public Safety will be a day-long event which will allow area educators, law enforcement personnel, and municipal officials, as well as interested members of the public to meet and discuss law enforcement and safety issues, as well as to hear presentations by invited speakers. Keynote speeches will be given by Martin Walsh, Regional Director for the Department of Justice in New England, and Richard Cohen, U. S. Attorney for Maine. A variety of concurrent sessions will be presented during three time periods, allowing participants in the conferences the opportunity to select topics of interest. Some of the sessions will be devoted to such topics as courts and sentencing, community impact on law enforcement, hazardous waste, law enforcement education, student rights, drug and alcohol abuse, hate activities, multi-cultural awareness, personal protection, handguns and small business and crime. Among the presenters will be Janet Mills, Oxford County District Attorney, Tom Lenkiewicz of the Maine Civil Liberties Union, members of the staff of Tri-County Mental Health, Janice Isley of the Department of Educational and Cultural Services.

The Conference has resulted from a series of planning meetings, coordinated by the S.A.D. 44 Adult and Community Education program with the cooperation of the Oxford County Sheriff's Department, at which issues of concern were identified. Subcommittees on Program and Speakers and Facilities have been working throughout the spring and summer, and a Publicity and Outreach committee has been formed to begin activities in September. Anyone who would like further information regarding the conference may contact the Adult and Community Education office at Telstar Regional High School, 824-2136.
